FORSCHEN 2011

INVITATION

Dear Homoeopath,

Yet another unforgettable event from IHMA, the National Platform of Indian Homoeopaths. Our state conference and scientific seminar **FORSCHEN 2011** is being held at Malappuram, Kerala, on April 10th, the most auspicious Hahnemann's day.

It is a fact that the yester years fetched tumultuous period to the Homoeopaths when they had to counter the contentions claiming the absence of scientific basis and particulate existence of material content in Homoeopathic dilutions, attempting to reduce the relevance of the system to a mere placebo. The study conducted by the IIT Bombay revealed the nanoparticulate existence of original drugs in Homoeopathic dilutions. We are happy to bring in the scientists of IIT Bombay who were behind this project and they present their research subject at **FORSCHEN 2011**.

The fundamentals of Homoeopathic philosophy, the modern day clinical diagnosis and scientific analysis converge to Predictive Homoeopathy, emphasizing Homoeopaths the need to induct a larger application of Hering's Law of Cure. We have immense pleasure to announce that two stalwarts of Predictive Homoeopathy hold sessions in **FORSCHEN 2011**.

At this event, we are proud to extend our congratulations and felicitations to our esteemed life member **Dr.P.K.Sudhir, MD (Hom)** recently appointed as the Controller of Examinations, Kerala University of Health Sciences (KUHS).

You are whole heartedly invited.

Dr. Jayesh Bellare is professor of Chemical Engineering at the Indian Institute of Technology, Mumbai. He is an elected Fellow of the National Science and National Engineering Academies of India. He was the first Head of IIT's School of Biosciences and Bioengineering and currently is also with IITB's Center for Research in Nanotechnology and Science. He has more than twenty years of worldwide experience in microscopy (especially cryo-TEM), in biomedical devices, and nanotechnology. He is a consultant to several industries, advisor to many Government panels, and serves on the board of directors of two companies. He has numerous publications, patents and awards, the latest being the Piercy Distinguished Visiting Professor at the University of Minnesota, USA and the NASI-Reliance Platinum Jubilee Award for application-oriented research.

Dr.Prafull Borkar, MD (Hom)

Dr. Prafull Borkar is closely associated with Dr.Praful Vijayakar for more than 18yrs and Predictive Homoeopathy since its inception. Practicing predictive way of Homoeopathy since 16 years. Not satisfied just with getting results but to understand why and how we get results and why and where we fail.

It is extremely important to understand the science behind the system of Homoeopathic practice and hence knowledge of Miasm is important and have been working towards this goal since many years.

Given many National Seminars over the years and also traveled to Russia, Germany and Israel to promote Predictive Homoeopathy with International Seminars successfully.

Practicing Homoeopathy with full conviction and self-analysis.

**Dr. Shrunal Jadhav, MD (Hom)**

Practicing Classical Homoeopathy. Faculty member of Predictive Homoeopathy Institute. Delivering lectures in Predictive Homoeopathic Seminars for National & International delegates. Frequent visit to Bhilai, Chhattisgarh as an Expert Consultant Homoeopath.
